UNIVERSITI TEKNOLOGI MALAYSIA

Subject : SECP 1513 Technology &
Information System

Section: Section 01

Lecturer : Dr. Azurah Bte A Samah

Name: Seow Yen Zhi

Matricks Number: A23CS0177

PC Lab:

It is the first time we work as a team together. It is a great experience as we are a team with all girls but we are able to complete this lab task. We manage to follow step by step as guided by the lab assistants. It is truly fun as this is the very first time we can disassemble and assemble the computer's Central Processing Unit (CPU). This lab task enhances our understanding towards the computer hardware. We are able to have hands on activity to assemble the CPU. It is a great satisfaction when we are the first group to complete the lab task.

Disassemble the CPU by loosen the screw and open the cover of the CPU

Plug off the cables

Take out the power supply, RAM, hard disc and CPU fan

Assemble the CPU

First group to finish assemble the CPU!
